

News

Introducing the OSINT digest! This digest will be produced by our internal R&D team to share new OSINT tools in a condensed and easy to read format. And while the R&D team will be working in several areas besides OSINT, this forum will strictly deal with OSINT tools, tricks and techniques for our research investigators to put to practice.

Articles of Interest

- A good read from Hunchly
 - [How-to-Blow-Your-Online-Cover](#)
- Jake Creps Tips on Creating Sock Puppet Accounts
 - [Creating Sock Puppet Accounts](#)

Must Adds! To Your Process

- Amazon Wish Lists - <https://www.amazon.com/gp/registry/search>
 - THIS SEARCH OPTION IS NO LONGER AVAILABLE
- VSCO - <https://vSCO.co/search/people>
 - Started by amateur photographers, used by people with iphones who think they are professional photographers; and hipsters.
 - Most profiles are public (try real name and known usernames)
 - Starting to see more links to VSCO on Twitter
 - No metadata (no ability to right click on image to send for metadata search or reverse image search or download)

Tools to Check Out

- Social Media Sidebar Searches that automatically scan a profile and search other social media sites for the user in a neat and unobtrusive sidebar.
 - <https://www.360social.me/>
 - Appears to only be for Firefox at this time.
 - [Prophet Google Chrome Sidebar Extension](#)
 - Chrome Extension, seems to work best while on a Twitter Profile.
- Facebook Search by Phone/Email URL Manipulation
 - This option is gone from the Facebook GUI, but reportedly this method will work
 - www.facebook.com/search/people?q=EMAILADDRESS – No Longer Available
 - www.facebook.com/search/people?q=PHONENUMBER – No Longer Available
